Cloud IP Camera

Quick Installation Guide

✉ support@conico.com

Note: Due to the continuous updating of the product & software, there may be a discrepancy between this user guide and App interface. All the instructions are subject to the actual operation interface.

Catalog

I. Install "MIPC" APP

To download the MIPC , please refer to the following 3 ways. Please note, each app require iOS 7.0 or later version, Android 4.2.2 or later. For PC users, it require Windows 7/8/10 or later version.

Option 1: Download the MIPC from Apple App Store (iOS) or Google Play Store (Android).

Option 2: Download the MIPC on the website: http://www.mipcm.com/download

Option 3: Scan the QR code by smartphone to download the MIPC.

II. Sign Up Account

Note: When using the application for the first time, please turn on the following 2 permissions.

Allow "MIPC" to access mobile cellular data and WLAN, otherwise you will not be able to add devices. Allow "MIPC" to receive messages, otherwise the phone will not receive alert push notifications when motion detection or audible alerts are triggered.The following is a screenshot of IOS cell phone operation, android cell phone permissions open method is basically the same as this method.
New users must register by email：
①Click on "Sign up".
②Follow the steps to complete your account registration.
③Login.

Ⅲ. Wi–Fi Set Up on Phone

Note: **Please set the camera up through a 2.4GHz internet connection, not support 5GHz for connection yet.**

a.Place the camera and smartphone within 1 to 3 feet (30 to 100 cm) of the router to ensure Wi-Fi signal strongly.

b.Plug the adapter in the device to power up.

c.Then Click the "+" button in the top left corner select the
device model.

d. Scan the QR Code attached on the camera or input the device ID directly to add a new device. Go into the network connection interface.

e. Then please follow the steps in the APP interface to add devices.

Ⅳ. FAQ
Ⅳ.1 Setting Issues

1.WiFi Connection Failed During Initial Setup Process

①Please set the camera up through a 2.4GHz internet connection, not support 5GHz for connection yet.
②Please ensure you have entered the correct WiFi password.
③Put your camera close to your router to ensure a strong WiFi signal.
④Please reset the camera for 10 seconds to restore to factory settings, you need to configure connecting again.

2. Device offline.

① Check whether the WIFI network is good and restart the router.
②If the location is far away from router, resulting in the inability to obtain a good WIFI signal, it is recommended to move the router to a closer location, or add a WIFI extender to enhance the home WIFI performance.
③Remove the camera from your MIPC account, please reset the camera for 10 seconds to restore to factory settings(Please set the camera up through a 2.4GHz internet connection, not support 5GHz for connection yet), and then re-add it.
④Check that the device firmware and applications are up to date.   3

3. Can't play history videos?

①Check the status of SD card in"Settings" and make sure the SD card is successfully recognized.
②Reinsert the SD card.
③In the application, format the SD card.
④Max supports 128 GB.
⑤Try another new SD card.

4. How to share the camera with my family?

① First let your family sign up for a new account, pay attention to register with a new email account.

② Go the settings, choose "Device Sharing , and enter the device password, then click to generate the QR code.

③ The person who you are sharing this with will open the app, select the device type, and scan the QR code.

If these won't work, please contact us
support@conico.com

IV.2 App Issues

1. There are spots on MIPC interface.
① Please wipe the camera lens.
② If it is still in it, please slap the lens from the side of the camera, then check if the spot moves.
③ If it is still in it, please contact our customer support.

2. If you receive tips like "Network Diagnostic", it means that your network is unstable. We recommend you to restart the camera; if it doesn't recover, restart the router.

3. If you receive a screen showing "loading" and "0KB" on the top right corner, please check your Wi-Fi network if it is stable.

4. If you the video is lagging, please check the network of your camera connected or move the camera closer to the router. Then test it again.

5. If you can't receive notifications, please confirm the following things.

① Please check if you accept the MIPC send notification to your phone.

② Please check if you turn on the "Sound" and "Vibration" on MIPC (Account "my" – Notification Center).

③ If you choose the alarm type and enable the alarm on Notification (Camera Settings–Alarm type).

If these won't work, please contact us
support@conico.com

IV.3 Other Issues
1. If you can't hear the voice clearly from the app or camera side via two way audio, please turn up the speaker of the phone and camera, and keep your phone away from the camera more than 2 meters, then try it again.
2. As for accessories broken issues, such as power adapter, power cable, wall mount, please contact our customer support directly.

V. Customer Service
· **Warranty**
 12–month Limited Warranty
· **NOTE**
 We hope that you enjoy the new purchase But if you are not satisfied with the product and plan to return, we strongly suggest that you reset the camera to factory default settings and take out the inserted SD Card before returning.
